

Supplier Code of Conduct

INTRODUCTION

At Latvijas Finieris Group, we highly value long-term relations with our business partners based on the principles of responsiveness, honesty and trust. Good governance, competition and the principles of mutual behaviour and treatment are reflected in our value of “respect”, which is the foundation of our internal culture.

This Supplier Code of Conduct (hereafter referred to as the Code of Conduct) sets out what we as a company value in our suppliers, how we operate and what we stand for. The Supplier Code of Conduct is based on the Code of Conduct of Latvijas Finieris Group. We expect all our employees and suppliers, as well as other business partners, to adhere to the same high standards and ethical behaviour.

The provisions of this Code of Conduct are an essential part of mutual cooperation. We trust that our suppliers and other business partners will, like us, commit to the principles set out here, and will progressively implement and integrate them into their business relations with their business partners.
