

ATTESTATION

No. E1-265-2/2025

Herewith it is confirmed that in the second half of 2025, performed on November 11, 2025, a regular supervision of the product

Birch plywood EN 636-2

plywood, lignin-phenolic-formaldehyde (LPF), unfaced
thickness range: $> 12 \text{ mm} \leq 25 \text{ mm}$

manufactured by

**A/S Latvijas Finieris
mill "Furniers"
Bauskas iela 59
1004 Riga
Latvia**

was carried out by the approved supervision body (NDS08)

Fraunhofer Institute for Wood Research

Wilhelm-Klauditz-Institut WKI
Riedenkamp 3
38108 Braunschweig
Germany

according to supervision contract no. 265 dated February 26, 1999.

It was found that the requirements on personal and equipment are suitable to produce the product in an adequate way and the factory production control meets the requirements of the "Regulation on the classification and external supervision of wood-based panels regarding formaldehyde emission (DIBt - Guideline 100)" dated June 1994. This attestation is part of the evaluation report. The continuous external supervision of factory production control shall take place twice a year.

Dipl.-Ing. Harald Schwab
Head of Department Quality Assessment
Braunschweig, January 21, 2026

ATTESTATION

No. E1-580-2/2025

Herewith it is confirmed that in the second half of 2025, performed on November 11, 2025, a regular supervision of the product

Birch Plywood EN 636-1

plywood, melamine-urea-formaldehyde (MUF), unfaced
thickness range: $> 12 \text{ mm} \leq 25 \text{ mm}$

manufactured by

**A/S Latvijas Finieris
mill "Furniers"
Bauskas iela 59
1004 Riga
Latvia**

was carried out by the approved supervision body (NDS08)

Fraunhofer Institute for Wood Research

Wilhelm-Klauditz-Institut WKI
Riedenkamp 3
38108 Braunschweig
Germany

according to supervision contract no. 580 dated August 20, 2013.

It was found that the requirements on personal and equipment are suitable to produce the product in an adequate way and the factory production control meets the requirements of the "Regulation on the classification and external supervision of wood-based panels regarding formaldehyde emission (DIBt - Guideline 100)" dated June 1994. This attestation is part of the evaluation report. The continuous external supervision of factory production control shall take place twice a year.
